### Local information:

The city of York is on the doorstep (4 miles) including the Castle Museum, the Jorvik Viking Centre, York Minster, the National Railway Museum and the Norman wall surrounding the City. Closer still is McArthur Glen designer outlet near the junction of the A19 and A64.

Within ½ mile of the site entrance you can access the York - Selby cycle way, which is about 15 miles long. It is on the trackbed of an old railway line as far as Riccall, then on a mixture of back roads and a path by the side of the A19 for the rest of the way.

You can also take a river bus service from Naburn Lock into the city centre.
